Honored Sir,

I am writing to you today to report fundamental 'wrongs' in the inner and departmental working of T-Mobile.

I have had the misfortune to be employed for T-Mobile and have witnessed glaring abuses of American fundamentals which is company wide in the Information Technology sector and in its workings.

Abuses such as

- awarding of contract jobs to visa holder companies, which in turn promotes **taking jobs** away from the American citizens' in the US.
- Senior leadership (VP levels and up) involved in contract award **scams**.
- Allegations of Senior leadership involved in female visa worker **sexual assault** incidents. (The visa workers are not able to come forward for fear of losing their American dream).
- The **blatant** hiring of immigrant friends and friends of immigrant co-workers with out basic checks and balances promoting the workplace to be **reverse racist**.
- **Targeting** of African – American's in the Information Technology organization using subversive means.

Employees who complained about such wrongdoings were either quieted with a pay package or were terminated citing edge case rule/s.

T-Mobile a company who's fundamentals' are so morally wrong could never do any long term good for the greatest Nation on this earth; THE UNITED STATES OF AMERICA.

Strengthening a company with such values will be synonymous to feeding a future curse.

For the above reasons and many more such reasons that I am unable to articulate, Sprint's merger with T-Mobile is not in the best interest of our Nation.

I hope I was able to communicate to you in the right spirit and be of help to my United States of America.

Your Truly,
